

CAIPO AUTOMAZIONE INDUSTRIALE SRL SU

Province:	Biella
Web site:	www.pintercaipo.com
Sectors:	Textile machineries, Spinning
Company activity:	The Company CAIPO AUTOMAZIONE INDUSTRIALE S.R.L. has a long experience in the textile machinery sector, since established in 1963 and located in the district of Biella. Its activity has evolved over the years and from the production of pneumatic devices has passed to the design and production of devices for the automation of textile machinery and to the present design and production of machinery and systems for the production of fancy yarns with slubs, with the insertion of colors and elastic. All devices can be applied either on machinery of new construction or on machinery that are already working. All the machines and devices are designed and produced internally in the factory and are certified by hard proofs and tests. Strengths of the Company are the continuous researches and innovation of the products and the strong vocation to the exports that by this time exceed 90% of its turnover. The technical staff dedicated to the evolution of the products and to the research of new lines, is composed of mechanical engineers, electronic engineers and information technologists. The internationalization, now principally extra-european, has been consolidated thanks to the widespread distribution of agents and to a joint-venture with a textile machinery manufacturer in India. The main markets served are: India, Pakistan, Korea, Bangladesh, Turkey, China, Brazil and Mexico.
Turnover:	5.222.000,00 €
N. of employees:	22
