Towards the end of the year that celebrates 25 years of activity, being part, first in our business segment, of a selected number of companies that really design and manufacture in Italy, makes us full of pride and further spur to innovation and continuous improvement. TF - Traceability &amp; Fashion is a voluntary system managed by Unionfiliere and promoted by Unioncamere and Italy’s Chambers of Commerce. Its objective is to certify and increase the value of the products of the “made in Italy” supply chains. Being able to trace a product’s identity back to its origin means that a virtuous circle is created in which both consumers and producers play an important part in a system in which:</li> <li>• The consumer knows his product has really been manufactured in Italy;</li> <li>• The producer sees the ethical values of his products recognized as a competitive advantage</li> <li>• The certification is awarded by an impartial body - Chambers of Commerce;</li> </ul> <p>The TF scheme - Traceability &amp; Fashion is voluntary and doesn’t replace existing regulations. The TF information is provided on a dedicated label that tells the product’s history along the entire production chain.
